Our ESG Journey

Technology for Climate Adaptation & AI

FireAId

- Led and sponsored by Koç Holding, developed by KoçDigital in cooperation with the Turkish Ministry of Agriculture & Forestry and guided by the **World Economic Forum (WEF**), the AI-based FireAId initiative was displayed at the Davos Annual Meeting 2023, it was hailed as a model for wildfire-risk mitigation**.**
- The project was pioneered by Koç Holding, following the devastating wildfires of 2021 in Turkey and across the region, in order to mobilize our advanced data analytics and AI skills in addressing this **global climate change** problem.
- The WEF published a detailed Report titled «**The Next Frontier in Fighting Wildfires**: FireAId Pilot and Scaling» on the encouraging results of the pilot study and showcased at a special Davos session.
- Inspired by the project's achievements, the WEF decided to start a new initiative called «**Tech for Climate Adaptation**» to understand and demonstrate how AI and other frontier technologies can be applied to a wide range of climate events, from sea-level rise to extreme heat. Koç is again invited to this new initiative as a founding partner.
